

For whom it may concern, I am one of a great many who benefit from listening to XM Satellite Radio and its traffic and weather channels. I enjoy the variety and programming that Satellite radio provides. It's audio programming that I can't get anywhere else and it's also a privelege that I pay monthly fees for. Therefore it should not be up to the National Association of Broadcasters to dictate what I can and cannot hear. This is a question of consumer choice and the freedoms protected by the First Amendment. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. Sincerely, Justin Harris
